How do you go to school? By bus or by bike? The elementary school students on the small Daiso Island, Penghu, Taiwan, go to school in the big Magong City by boat. Why? Because there is no elementary school there. Catching fish was hard work, and there were not enough fish in the sea. The parents on Daiso Island went to big cities with their children for different jobs. The only school there didn't have enough students, so it was closed in 2005.

Now, the students take a boat at 6:40 a.m. to Chongguang Port in Magong City. It is about 20 minutes. Then they take a taxi to school. It is about 10 minutes. Sometimes the wind is too strong, and they can't go to school on that day. They really want to have a school on their island, but they can't.

You have a sweet tooth. You like chocolate, candy, and cake. You can't say no to them; you want them every day. They may not be good for your body, but you can't help it. What's going on with you? Well, maybe it's not you; maybe it's your brain.

With sugar in your body, your brain makes dopamine. With dopamine, you get good feelings, and your brain likes those feelings. But the dopamine in your brain is not there for long. It fades away over time. Your brain then wants more. It says to you, "You want good feelings; you want sugar." Then you want sweet food again. After some time, your brain loves sugar too much. From a small slice of cake to a big bag of chocolate, you want more and more.
